**LIVE**  
**native**

A revolutionary skin **Care** concept  
using only the **purest** organic **raw**  
ingredients harvested **fresh** from the earth,  
the oceans and the forest.

## a philosophy: living, beyond organic

Our commitment towards purity of ingredients exceeds all the standards and conditions set down by every certification association. Whilst Live Native does not affiliate with an Organic Association, our suppliers are certified. Also, Live Native is an active member of the Vegan Society against animal cruelty and testing. All Live Native ingredients are blended in their RAW state – meaning that they are either cold-pressed or squeezed directly from the living plants (like our unpasteurised Aloe vera) which are truly free from chemical fertilisers, pesticides, herbicides and insecticides.

When choosing our living ingredient suppliers we always prefer to ship FairTrade. Our rhassoul clay and argan oil both come from FairTrade co-operatives in Morocco, whilst our shea butter is shipped from a fair-trade women's co-operative in Ghana.

### your organic choice

As you may currently have a skincare partner, we thought that you may consider introducing Live Native to your clients as a new, alternative or exclusive experience. A totally unique treatment that is truly beyond organic, that is sure to compliment your existing protocols and attract the growing number of discerning clients who now prefer a purely holistic skincare regime.

Our Spa Professional products utilise enhanced formulations with additional bio-active ingredients – ideal for spa, salon and hotel operators who wish to provide not only a luxurious, ethically responsible and therapeutically effective alternative...but something special. We have flexible, affordable and easy-to-manage purchase packages to choose from, which includes salon professional size products with accessories and retail products, in-spa commercial training with Live Native's creator Vicky Ewbank and protocol training with renowned protocol designer and facialist Abigail James.

The protocol packages comprise of six totally unique signature treatments; two body, two facials, a pedicure and manicure. All treatments combine the unique healing energies of specifically selected crystals with the exceptional therapeutic benefits of fresh, enzyme-active product that act as an adaptogen to restore dermal equilibrium by stimulating the skin's natural detoxification; this in turn, encourages its inherent healing ability.

We hope that you might take a moment to discover the amazing new concept of living skincare – one that has received significant accolades from the British press; proclaimed to be 'The Future in Skin Care" by eco-lifestyle magazine 'Lifescape' and won a number of health industry and beauty awards. Why? Because we are one of only a few companies in the world to produce handmade cold-pressed living skincare. **We are Live Native.**

## If you wouldn't eat it, why would you use it on your skin?

An expression that is perhaps the cornerstone of the Live Native philosophy and a responsible ethos by which our life-loving vegan organic SkinFoods & Professional Spa products are developed. We take the selection of our base ingredients beyond those of any other skincare company and select only the finest certified vegan organic or wild harvested ingredients - none of which have been exposed to temperatures of more than 47.7°C at any time during their journey from the jungle to the jar.

Did you know that your skin absorbs up to 60% of whatever skincare product you put on it; leaving traces of potentially harmful substances in your body for as long as a lifetime? If this concerns you – and particularly the skincare products that you either use personally or those that you recommend to customers and clients – then please read on!

## the living skincare concept

Live Native is a truly unique concept in skincare. Our beautiful range of cold-pressed skincare products are handmade using only the finest nature-intact tropical oils and mineral-rich living plant extracts. And, because these RAW living ingredients are not cooked or denatured by heat-processing at any time, they retain their highly nutritious store of life-loving enzymes, minerals, phytochemicals, essential fatty acids and antioxidants to restore, balance and protect all skin types.

Live Native will never add colourings, preservatives, parabens or phthalates, petroleum by-products, synthetic fragrance, alcohol, unnatural stabilizers or any other skincare 'nasties' and have a shelf life of 12 months.

Live Native produces the purest, cleanest and the most nutritious range of freshly handmade therapeutic zero-toxin skincare products available today.

## healthy happy customers

*" I just wanted to say how fabulous your products are....WOW! And how lovely the philosophy is from which they have grown. Wonderfully balancing, amazing aromas, exceptionally high calibre ingredients. I can't wait to try some more! Your products really are amazing...you've managed to create something unparalleled in so many ways to anything I've come across before. You most certainly have a customer for life."*

**Dr. Kate James – Newcastle**

*" I absolutely adore Live Native's 'Essential Woman with Frangipani': it is extremely moisturizing, leaving my skin ridiculously soft and supple. Every time I open the jar my senses are surrounded by the gorgeous smell of Frangipani and Rose, leaving me feeling an overwhelming sense of calm. I love this product and could not do without it! I also love the way Live Native prepares their creams from purely natural, fresh ingredients with no preservatives; maybe this is why it calms and soothes my extremely sensitive skin so effectively? Definitely the way forward for skincare... Thank you Live Native! "*

**Indira – London**

*" Live Native produces the purest Skin Food range that I think challenges the likes of Elizabeth Arden's 8-hour cream."*

**Carole Caplin – Mail on Sunday**

*" Finding Live Native has been a breath of fresh air for me. To find a product range that I believe in 100% for it's completely natural, ethical approach. With Vicky's background as a homeopath and nutritionist, it is very apparent that Live Native products have been created with a different approach to traditional skincare. The products themselves feel luxurious, fantastic on the skin and are full of amazing naturally raw ingredients that combine to make wonderfully scented products. "*

**Michelle Wellsteed – Casa Bonita**

*" One of our customers told us that she has spent her life searching for the perfect face cream... And now she's found it! "*

**Jen Marsh – On the Eighth Day, Manchester**

*" I had breast cancer surgery and was told not to use any moisturisers near the scar, should it become irritated. However, I did use Everybody Every Day and the surgeon remarked on how quickly the scar tissue had healed. It was definitely due to the cream. I've been buying other products for years – and have a whole drawer full – and they're all redundant now that I've discovered Live Native. I don't use anything else! "*

**P. Morrison – Isle of Skye**

*"A few years ago  
I co-wrote the  
Integrated European Standards  
for Organic Skincare...  
And your products are one  
of only a tiny number  
of companies I know of  
that far outreach  
even these standards."*

LIVE NATIVE **FIVE:ELEMENT BODY** treatment is a soothing whole-body treatment with profound therapeutic results; a treatment that elegantly marries together holistic massage and a millennia of Eastern healing tradition with a unique homoeopathic twist.

To begin, two different sachets of wild harvested Himalayan herbs are individually prescribed and then prepared for each client. The sachets are immersed and softened in warm massage oil or water and then inserted into an organic mitt; one side detoxifying nettle fibre – the other, nourishing hemp. The nettle massage mitt invigorates the clients dominant element to stimulate release with healing. Secondary nourishing herbs are then used to support and strengthen the organs in most need of aid. Next is a soothing whole body massage, which includes caressed acupressure points engaged to strengthen the immune system and restore tranquility to the nervous system. The client will enjoy a renewed sense of well-being as the FIVE:ELEMENT's are returned to balance, and harmony is restored.

DURATION | **90** MINS

LIVE NATIVE **FIVE:ELEMENT BACK** is a relaxing head, neck, sacrum and whole-back treatment with profound holistic results. A quick treatment that elegantly marries together therapeutic massage and a millennia of eastern healing tradition, but with a unique homoeopathic twist.

Begins with a relaxing head chakra massage, a soothing compress; then two different sachets of wild harvested Himalayan herbs are individually prescribed and then prepared for each client. The sachets are immersed and softened in warm massage oil or water, then inserted into an organic mitt; one side detoxifying nettle fibre – the other, nourishing hemp. The nettle massage mitt invigorates the clients' dominant element to stimulate release with healing. Secondary nourishing herbs are then used to support and strengthen the organs in most need of aid. Next, the client is treated to a soothing whole-back, sacrum and neck massage that includes caressed acupressure points, engaged to strengthen the immune system and restore tranquility to the nervous system. The client will enjoy a renewed sense of self and well-being as the FIVE:ELEMENT's are returned to balance, and harmony is restored.
